

## Camera Slider MODULA 3 In 1

SKU	SH03030235
EAN	8055687020706
UPC	816892020046

## OVERVIEW

**ShooTools Slider Modula** is your ideal and practical solution for any shooting, functional for a professional studio, a corporate or to shoot a wedding.

**Three combinations of interchangeable rails** of 15,7" 31,5" and 59" ( 40, 80, 150 cm) that amplify your freedom of production simply by installing the carriage from one rail to another briefly.

This kit represents the best of ShooTools Technology: each component has got a high standard quality and performance, is assembled, tested and packed manually by expert people in **ITALY**

**CARRIAGE**

A universal carriage, obtained through **CNC process from a unique aluminium block**, with Brake and Friction System is characterized by an extremely high quality of the materials, high steadiness and ergonomoy.

**WHEELS**

Special wheels realized with an **innovative ST-66 technopolymer** studied by ShooTools in order to guarantee max smoothness and extreme carriage fluidity.

Each wheel is characterized by a **double steel ball bearing** that equipped the exclusive ShooTools' wheel assembly, for a max fluidity of movement and performance.

**FRICION SYSTEM**

**A double friction system** allows to act both on the wheel assembly system and manually in order to adjust the feeling of your tracking shot in real time through the control knob.

**RAILS**

3 Anitbending Rails, with the **record width of 3,3" (84 mm)**, realized to guarantee an absolute stability even for the heaviest video cameras

Each Slider supports a load over 44 lb (20 Kg) and is **ready to be motorized** or equipped with other accessories. Suitable for any type of photo or video head with 3/8"-16 thread, any Slider Modula could be installed easily and rapidly also over tripods and filleted plates of 1/4"-20 and 3/8"-16

**QUALITY of Made in Italy**

Each component undergoes **two distinct types of treatment**: the first one, by shot peening through ceramic spheres, increases the hardness and the resistance to fatigue of the object and, in addition, provides a pleasant hi-grip finish. The second treatment, anodizing at 30 microns, protects the device from any external agent. These technical solutions allow the use of the ShooTools Camera Slider Modula from the Namib Desert to the glaciers of Greenland.

**HIGHLIGHTS**

- 100% Made in Italy
- 3 Interchangeable Rails 15,7" / 31,5" / 59"
- 8 High Precision Steel Ball Bearings
- Professional Equipment
- Billet Anticorodal Components
- ST-66 Polymer Wheels
- 44 lb Load Capacity
- 3/8"-16 and 1/4"-20 Mounting Threads
- Ready for Motion Control
- 5 YEAR WARRANTY

**IN THE BOX**

- 3 Rails with the length of: 15,7" / 31,5" / 59" (40, 80, 150 cm)
- Carriage with Brake and Friction System
- Non-woven fabric wrapper
- Set-up Keys
- Instruction Manual

**WARRANTY**

5 YEAR WARRANTY

## SPECS

Rails	3 x Antibending Rails
Width Rail	Record size of 3,3" (84mm)
Load Capacity	44.2 lb (20 kg)
Wheels	ST-66 Special Polymer Wheels
Ball Bearings	8 High Precision Ball Bearings
Supports	Rubber support bases at the far end
Friction System	ShooTools Double Friction System
Screw Thread	3/8"-16
Tripod Mounting Threads	3 x 1/4"-20 // 3 x 3/8"-16
Materials	Anodized aluminium, steel ball bearing, PSU polymer wheels
Weight 15,7" (40cm)	2,8 lb (1,3 kg)
Weight 31,5" (80cm)	5,7 lb (2,6 kg)
Weight 59" (150cm)	8,3 lb (3,8 kg)
Treatments	Shot peening through ceramic spheres // Organic Anodization at 30 micron
