

SUPPORT LEGS

SKU	SH81060015
EAN	8055687020416
UPC	816892020404

OVERVIEW

This pair of aluminium legs CNC machined is specifically designed to be universal for any camera sliders in the market, equipped with standard 1/4" male thread. The same used for quick release plates of tripods.

The height of the feet is easily adjustable and a practical locknut secures the feet to the selected height.

The feet can rest securely on any type of regular or irregular surface. The base of the feet has a non-slip rubber finish, that allow you to install the slider on any surface that you like, even the most delicate.

QUALITY of Made in Italy

Each component undergoes two distinct types of treatment: the first one, by shot peening through ceramic spheres, increases the hardness and the resistance to fatigue of the object and, in addition, provides a pleasant hi-grip finish. The second treatment, anodizing at 30 microns, protects the device from any external agent.

HIGHLIGHTS

- 100% Made in Italy
- Universal for Any Slider in the Market
